

NOTICE

1. Building permit application must be completely filled out. Any omissions may cause the permit to be delayed.
2. Applications must be submitted with the following, as applicable:
 - A. Prior to submitting a Building Permit Application the applicant is required to submit (3) three sets of plans to the Fire Department for their review and approval. One set of plans will remain at the Fire Department, one set will remain with the applicant and the final set will be submitted with the Building Permit Application. Any addendums to the drawings through the course of the construction will need to be submitted for approval by the Fire Department and the Building Department.
 - B. Building permits are issued in two phases; foundation permit and building permit. After installation of the foundation, inspection and approval, the applicant will be required to submit a certified foundation plan, by as licensed Land Surveyor in the State of New Hampshire, showing the setbacks to the property lines. After review and approval by the Planning Director, a building permit will be issued for the remainder of construction. Prior to issuance of an occupancy permit, a certified plot plan, by a licensed Land Surveyor in the State of N.H., shall be submitted showing the location of the building, well, septic tank and leach field. After review and approval by the Planning Director, a certificate of occupancy will be issued. This requirement may be waived for an addition to an existing structure if, in the opinion of the Planning Director, the setbacks could be met.
 - C. Sewage or waste disposal system approval and plan for new construction, bedroom additions, and septic system repairs. See Article K of Town Health Ordinances for requirements.
 - D. Blueprint drawings of proposed work reduced to 8 ½" x 11", 8 ½" x 14" or 11" x 17".

APPLICATION FOR DRIVEWAY PERMIT

Pursuant to the provisions of RSA 249:17 and the Subdivision Regulations of the Town of Pelham, New Hampshire, permission is requested to install a driveway entrance to my property at a location which will meet the requirements for safety specified in said statutes and regulations.

Proposed Location:

Tax Map Number of Property: _____

Street Name: _____ House # _____

Number of nearest telephone pole: _____

Side of Street: _____
(North, East, South, West)

Note: The Planning Department must be provided with a plan showing the proposed location and design of the driveway prior to construction.

The Highway Safety Committee recommendation & Fire Chief approval must be granted prior to issuance of Certificate of Occupancy.

Driveway to Serve	Single Family Dwelling..... <input type="checkbox"/>	Industry <input type="checkbox"/>	Business	<input type="checkbox"/>	Apartment
	House..... <input type="checkbox"/>				
	Duplex..... <input type="checkbox"/>	Subdivision <input type="checkbox"/>			
	Senior Complex <input type="checkbox"/>	Other <input type="checkbox"/>			

As the landowner applicant, I hereby agree:

- To construct the driveway entrance only for the bona fide purpose of securing access to private property such that the highway right-of-way is used for no purpose other than travel.
- To construct the driveway entrance at the location determined by the Pelham Planning Board or its duly authorized agent to be the safest and according to the conditions imposed by the aforesaid statutes and regulations.
- To furnish and install, at the applicants expense, drainage structures that are necessary to maintain existing highway drainage and adequately handle increased runoff resulting from present and future development.
- To hold harmless the Pelham Planning Board and its duly authorized agents and employees against any action for personal injury and/or property damaged sustained by reason of the exercise of any driveway permit issued by the Pelham Planning Board or it's duly authorized agents and employees.

Conditions:

- This permit requires the lot frontage area adjacent to the street be graded so that the elevation of the frontage, including driveway, will slope away from the edge of the street no less than a distance of 6 feet in width and not less than 6 inches in depth below the elevation of the edge of the street.
- A culvert not less than 6 inches in diameter shall be installed under the driveway no less than 18 inches below the surface and in line with the drainage gutter referred to in Condition #1. The soil at each end of the culvert shall be stabilized by a header of adequate design.
- The driveway entrance may be flared as it approaches the highway.
- Other access to the highway from the premises is to be prevented by construction of a barrier or barriers, such as a grass plot, low hedge, curbed island, etc. The front face of this barrier shall be 25 feet from the centerline of the pavement.
- The highway right-of-way line is located 25 feet from the parallel to the centerline of the highway.

6. No structures, including buildings, permanent or portable signs, lights, displays, fences, walls, sports equipment, sprinkler systems, etc. shall be permitted on, over, under or in the highway right-of-way.
7. No parking, catering or servicing shall be conducted within the highway right-of-way.
8. No curbing shall be cut. Where there is curbing, the driveway shall be butted up against the curbing.
9. Failure (a) to adhere to the standards and engineering drawings, if any, previously submitted; (b) to adhere to the terms and conditions of the Driveway Permit Application; (c) to adhere to the terms of this permit; (d) to adhere to RSA 249:17 and the Driveway Permit Regulations of the Town of Pelham; and (e) to complete the driveway facility within one year, shall render this permit null and void.

HIGHWAY SAFETY COMMITTEE INSPECTION/ COMMENTS

Road Agent: _____

Planning Director: _____

Police Chief or Designee: _____

Fire Chief or Designee: _____

Final Approval: _____

Fire Chief (NFPA Authority Having Jurisdiction)

The following driveway specifications are excerpted from the Town of Pelham Subdivision Regulations and are provided for your reference:

L. Driveways and Other Accesses for Single Family and Duplex lots

Driveways and other accesses to the local street network or proposed streets shall be constructed in accordance with the relevant provisions of the Pelham Subdivision Regulations, and the most recent version of the document entitled "State of New Hampshire Department of Transportation Policy and Procedure for Driveways and Other Accesses to the State Highway System". Driveways shall be defined in accordance with the definitions given in the most recent version of the Institute of Transportation Engineers Guidelines for Driveway Design and Location. Both of these documents are hereby incorporated into these regulations by reference. The more stringent requirements of the Pelham Subdivision regulations shall apply where different. The Planning Board shall retain approval authority for all wetland or WCD crossings or other lot access where steep slopes or other special features are present.

All driveways and other lot accesses shall be constructed as permitted then approved by the Fire Chief as the Authority Having Jurisdiction (AHJ) in accordance with NFPA I and in conjunction with Highway Safety Committee review and guidance prior to issuance of a building permit. The Fire Chief or his agent shall have jurisdiction for the design and location of all dry hydrants, fire cisterns or other water access.

A Special Permit will be required by the Planning Board before a driveway approved under these regulations is relocated with review and comment by the Highway Safety Committee and approval by the Fire Chief or his agent prior to the issuance of a building permit.

Driveway Specifications:

1. Driveways shall meet the roadway at a perpendicular angle and shall be flared 2 feet on each side where it meets the roadway. The driveway shall have a maximum slope of +/- 5% for the first 20 feet and any curves in the driveway shall have a minimum radius of 25' at the inside of the curve and 50' at the outside curb line.
2. Driveways of 150' or less in length shall be a minimum of 12' in width with a maximum slope of +/- 10% after the first 20' and the alignment shall permit a WB-50 Vehicle to pass (standard fire truck).
3. All driveways between 150' and 300' shall be a minimum of 14' in width with a maximum slope of +/- 10% after the first 20'.
4. All driveways exceeding 300' in length shall be a minimum of 14' in width after the first 20' with a maximum slope of +/- 10% and must be terminated with a paved turn-around area adequate for a WB/50 vehicle with a maximum slope of +/- 5% within the turn-around area.
5. All driveways 500' or more in length shall be a minimum of 14' in width, with a maximum slope of +/- 10% after the first 20' and shall include a pull over at the midpoint to accommodate a WB/50 vehicle allowing another WB/50 vehicle to safely pass. Driveways of this length shall be terminated with a paved turn-around area adequate for a WB/50 vehicle with a maximum slope of +/- 5% within the turn-around area.
6. All New subdivisions shall submit plans showing proposed driveways conforming to these minimum standards of this section in order to be approved.
7. Whenever a building permit is pulled the applicant shall submit a driveway application with a certified driveway plan that either conforms to the subdivision plan approved under these standards, or they must seek a special permit from the Planning Board and prove a new location of their choosing meets these minimum standards. Verification that the driveway complies with this section shall be made in writing by the Planning Board's review engineering firm.
8. All private driveways serving Senior and Elderly Housing projects shall be constructed to Town Road Specifications as defined within this document in addition to meeting all the requirements of the Fire Chief under NFPA I as described in this section.

WAIVER OF INTENT TO CUT WOOD OR TIMBER NOTICE

Effective January 1, 1999 Pursuant to changes in RSA 79:1 II b Owners cutting for land conversion purposes are subject to the following condition:

*(b) The following persons **shall not** be required to file an intent to cut or be subject to the tax imposed by this Chapter:*

(5) A person who cuts or causes to be cut, within the tax year, up to 10,000 board feet of logs and 20 cords of wood or the equivalent in whole tree chips, from the person's own land within a municipality, for land forest uses, provided that those persons intending to convert the use of the land have secured all required permits, including, but not limited to, building permits, subdivision or zoning permits, excavation permits or site plan approvals, as necessary for the use to which the land will be converted, and are able to furnish proof of such permits.

I, _____ (Owner/Builder) do hereby certify that I have refused an Intent to Cut for the property located at _____
(address)

also known as Map _____ Lot _____ on the Pelham tax maps. I understand that by signing this form, I am certifying that no standing timber will be cut on this property except as defined in RSA 79: 1 II (b) (2) (see above) in preparation for building a house. I also understand that "starting a cutting operation before the appropriate notice of intent has been filed with the Town and signed by the appropriate notice of intent has been filed with the Town and signed by the appropriate municipal officials shall constitute a violation by the owner or any other person doing the cutting or both. Failure to post the certificate on the job in a conspicuous place upon receipt shall constitute a violation."

I certify that I have read and understand the above form. If I am in need of further information concerning Intent to Cut Statutes, I understand that I may receive any requested information form the Pelham Assessor's Office upon request.

Owner / Builder

Date

_____ I certify that there is no wood being cut on this property

_____ I certify that there is wood being cut, but it is exempt per the above mentioned RSA (wood being used for personal use).

I _____ representing
(Signature of Building Contractor)

_____ do hereby certify

on this date _____ that all energy related components and
(Month, Day, Year)

systems installed in the structure located at:

(Location of Property)

meet or exceed the standards of the New Hampshire Energy Code with

amendments effective June 1, 1986. Any person who violates the

provisions of the Energy Code shall be guilty of a misdemeanor.

ENERGY CODE COMPLIANCE CERTIFICATION

Energy Code Compliance Certification will now be required for the construction of new structures and the renovation of existing structures as required by the Public Utilities Commission.

There are several methods of applying for this certification:

Complete Performance package;

Rescheck software method available online at www.puc.nh.gov;

Express NH Energy Code Compliance package.

If you should need any assistance in completing these applications you can contact the Public Utilities Commission Office at the above website address or at 603-271-6306.

****This is required before all approvals of Building Permits****

Effective 4/13/2007

How to Obtain Permits to Install

Oil or Gas Burning Equipment

1. Applicant must fill out an application for permit to install oil burning equipment or gas burning equipment through the Fire Department.
2. Application fee is \$15.00 which is paid to the Fire Department.
3. The completed application will be held until the Fire Department is informed by the applicant that the burner is ready for inspection. At that time, an appointment will be made for the fire inspector to inspect the burner.
4. At the time of inspection, the fire inspector will also be checking your smoke alarms (hard-wired for new construction; battery operated for older homes), your battery operated or plug-in carbon monoxide detector alarms and making sure the number of your house is visible from the road.
5. Once inspected and approved, the applicant will be given (or mailed) a signed copy of the Permit,
6. Signed permit should be given to the Planning Department

Laws and regulations governing the installation of oil burners, gas burners, tanks, piping, etc. may be found in the National Fire Protection Association (NFPA) Standards and Town of Pelham guidelines.

If you have any further questions on the above procedures, please contact the Fire Department secretary at 635-2703, Monday thru Friday, 8:30 am to 4:30 pm.
