August 28, 2015

Governor Maggie Hassan
Office of the Governor
State House
107 North Main Street
Concord, N.H. 03301

Dear Governor Hassan:

The enclosed letter regarding concerns about the Northeast Energy Direct natural gas pipeline project (FERC docket PF14-22-000) was written jointly by a group of conservation commissions in southern New Hampshire, and distributed to other conservation commissions for their consideration and possible signature.

Thirty-five New Hampshire conservation commissions signed the letter. The Mason Conservation Commission agreed to distribute the letter on their behalf, and will act as liaison to this group should you wish to communicate on this matter. We agreed to serve in this role solely for logistical reasons, to provide a single point of contact. The letter itself is very much a collective effort, and the Mason Conservation Commission is but a single signatory.

Respectfully,

A handwritten signature in black ink, appearing to read "Robert Dillberger", written in a cursive style.

Robert Dillberger
Mason Conservation Commission
