The anticipated scope of work includes the following:

PART 'A' - Drainage improvements along Brookview Drive in Pelham, NH, where an unnamed stream passes beneath the road surface. More specifically, this work includes saw cutting and removing portions of Brookview Drive and the existing 36-inch corrugated metal cross culvert; by-pass pumping of the unnamed stream; incidental excavation and dewatering; furnishing and installing a proposed 48-inch HDPE culvert and precast or MRM headwalls; reconstructing a portion of Brookview Drive; loaming and seeding of disturbed areas; erosion control; and related work as shown on the Drawings.

PART 'B' - Drainage improvements along Tallant Road, in front of #46 Tallant Road. More specifically, this work includes saw cutting and removing portions of Tallant Road and the existing 12-inch reinforced concrete pipe; incidental excavation and dewatering; furnishing and installing a proposed 12-inch HDPE culvert to the same line and grade as the existing pipe (approximately 34 linear feet) with MRM headwalls at the inlet and outlet ends; permanent pavement repair on Tallant Road, riprap at the outlet end; loaming and seeding of disturbed areas; erosion; and related work. No detailed plans were prepared for Part 'B' work.

All work must be completed during the 2015 construction season. Keach-Nordstrom Associates, Inc. of Bedford, New Hampshire is the project engineer.
