# TRUCK COVERAGE 4 (TC4)

## NOTES:

**NOTE 1:** There are four (4) different Truck Coverages. Each TC package builds on the previous package (i.e. TC2 includes TC1; TC3 includes TC 1 & 2; TC4 includes TC 1, 2 & 3). Towing Coverage and Axle Coverage are stand-alone coverages that would need to be added separately. ParkSmart Coverage is only available in combination with one (1) of the TC products or Climate Control in the same time and distance.

**NOTE 2:** Truck Coverage 4 is not an extension of the standard new vehicle warranty. For detailed information about specific components or components contained in each extended coverage system group, please email [ASPHelp@daimler.com](mailto:ASPHelp@daimler.com).

## WHAT IS TRUCK COVERAGE?

Truck Coverage is the extended service coverage that progressively combines chassis components into increasingly more comprehensive packages. The least comprehensive package is Truck Coverage 1 (TC1), while the most comprehensive coverage is TC4. Those familiar with our engine coverage products will appreciate the ease of selling value with these progressive packages. Truck Coverage is designed with the customer in mind, and coverages are grouped as they are typically purchased today. Truck Coverage 4 (TC4) is the Extended Service Coverage that combines several chassis components into one product. TC4 is the most comprehensive Extended Service Coverage offered and is the only TC to include Detroit Assurance Extended Coverage.

## WHERE DID THIS PRODUCT ORIGINATE?

Truck Coverage came from an Aftermarket Service Products (ASP) initiative to make chassis coverage easier to understand and sell. This product structure was designed to emulate our Engine Coverage (EW1-EW4). [www.aftermarketserviceproducts.com](http://www.aftermarketserviceproducts.com)

### Truck Coverage 4 Inclusions:

Truck Coverage 4 is a unique and distinctive product that provides extended coverage for specific, factory-installed components including:

- Starter
- Alternator
- ATS/Emissions
