SPECIAL GUEST IN ATTENDANCE

Liz Kelly with Resilience Planning and Design, LLC – In person
Crystal Kydd with Resilience Planning and Design, LLC – via Zoom

MINUTES August 16, 2023 deferred to next meeting.

NEW BUSINESS

The Meeting was called to order at 6:00 by Mr. Samuel Thomas.

Ms. Liz Kelly with Resilience Planning and Design, LLC gave a presentation and overview of the Draft Master Plan.

She explained that she will prepare a glossary and descriptions of town boards and committees will be added.

The committee members went through each section of the document with minor suggestions and edits.

Sam spoke about adding the Water Commission to the document.

It was suggested that anywhere within the document where “rural character” is mentioned that we change it to rural “heritage” or “history”.

Sam Thomas and Roger Montbleau offered to send more photos of the Bluebird Society to Resilience and John Spottiswood was going to send some photos of the ponds. Liz asked that any changes or edits be sent to them no later than November 3rd to allow time for Resilience to make the edits and get the final draft document to the committee for review.

Liz went over the next steps and it was agreed that the final meeting of the committee would take place on December 6th. At that time, we will go over public hearing, adoption etc.

.

The meeting was adjourned at 8:00 p.m. **MOTION MONTBLEU/LAMOUREAUX**

Respectfully submitted,

Jenn Beauregard, Planning Director
